Building Resilient Communities

The Community Emergency Response Team (CERT) program educates volunteers about disaster preparedness for the hazards that may impact their area and trains them in basic disaster response skills, such as fire safety, light search and rescue, team organization, and disaster medical operations.

CERT training is a commitment of **20 hours**. Only those who successfully complete the practical exercise with hands-on instruction in fire suppression, search and rescue, cribbing and medical operations will receive a certificate of completion. **Students under 18 must be accompanied by a parent or guardian.**

The course cost is FREE. Participants will receive a CERT backpack filled with emergency supplies and other goodies.

*****CERT courses may be subject to cancellation at any time prior to start of class, if minimum registration number is not met*****
